BESSEMETER Pinless Wood Moisture Meters

Right Meter, Right Price

Bessemeter's premium wood moisture meters give you peace of mind and the confidence you need to make your moisture problems disappear. Bessemeter electronic pinless wood moisture meters are fast, easy to use, highly accurate, and affordable, so you get all of the wood moisture information you need in the shortest amount of time.

Bessemeter S300 ShallowScan Pinless Wood Moisture Meter

The S300 provides near-instantaneous targeted readings for finding moisture pockets near the surface of either softwood or hardwood pieces. Hobbyists and woodworking professionals alike will appreciate the S300's comfortable yet rugged design.

Features:

- Measures to a depth of 0.25" (0.6cm)
- Digital display with moisture content range of 6-32%
- Includes calibration verification tool and hardshell carrying case
- 2-year warranty

Bessemeter D300 DeepScan Pinless Wood Moisture Meter

The D300 provides all the same features as the S300, but is engineered for obtaining quick, accurate moisture readings deep inside either softwood or hardwood. It's well suited for a wide variety of wood moisture measurement applications for hobbyists and professionals alike.

Features:

- Measures to a depth of 0.75" (1.9cm)
- Digital display with moisture content range of 6-32%
- Includes calibration verification tool and hardshell carrying case
- 2-year warranty

Bessemeter DS500 Dual-Depth Pinless Wood Moisture Meter

The DS500 combines the ShallowScan and DeepScan features of the S300 and D300. It's like getting two highly accurate meters in one! As with Bessemeter's other pinless meters, the DS500 is well suited for a variety of wood moisture measurement applications for hobbyists and professionals alike.

Features:

- Dual-depth measurement: 0.25" (0.6cm) and 0.75" (1.9cm)
- Digital display with moisture content range of 6-32%
- Includes calibration verification tool and hardshell carrying case
- 2-year warranty
